I am writing as property owner near Linsfort beach co donegal. This oyster farm that was granted by you 2 years ago dangerous to our children and sea life that swim here. We have had dolphins get caught up in the steel rails. The oyster bags and debris are thrown all over the beach. The beach is no place for this plus the oysters are a foreign specie to our environment . I see you are based in Cork? Far enough away from having to see or deal with this disgrace you have allowed on this beautiful beach in Donegal.. please deny any more use of oyster farming up here for our safety
Thank you
